

PRESS RELEASE

HilAir recently placed the order for our first demonstrator aircraft, a Sky Arrow 650TCNS. The Sky Arrow 650 TCNS is a composite aircraft made completely of carbon fibre and is a Night VFR certified aircraft which will be registered as VH-SLH.

The aircraft has been ordered and will be delivered with an upgraded avionics suite including;
Garmin 430 GPS/NAV/COM
Garmin GI106 CDI/VOR/GS Indicator
Garmin GTX327 Transponder.

Other extras include;
18ah Battery
External Power Jack
Main Wheel Covers and Nose Wheel Mud Guard, and
Canopy and Engine Covers.

VH-SLH will depart the factory shortly and is expected in Perth on or about 02 July 2007. When the aircraft arrives it will be moved to Jandakot Airport where it will be inspected and the Certificate of Airworthiness will be issued.

To take a closer look at VH-SLH or even go for a fly in this amazing aircraft call HilAir or use the [enquiry](#) page to make an appointment.
